

## LOCAL FARM BUREAUS TO TALK PROJECTS FOR SEASON

A series of meetings at which projects for local bureaus for the coming year will be decided upon, have been planned. The Weber county farm bureau will be represented at the meetings by W. P. Thomas, county agent, while the county club representative, A. H. Taylor, and Miss Ellen Agren, county home demonstrator, will represent their respective departments. The first meeting will be held next Monday at South Weber.

## ORCHESTRA, ORGAN AND CHOIR WILL JOIN IN HALLELUJAH

With a thunderous and harmonious accompaniment played by an orchestra of 85 musicians and the large pipe organ as well, the Ogden tabernacle choir tomorrow evening will sing that famous chorus of exaltation, "The Hallelujah," from the world's greatest oratorio, "The Messiah," by George Handel.

This is to be only one feature of the concert at the tabernacle with the Minneapolis Symphony orchestra as the stellar attraction.

In the opinion of several foremost critics, the Minneapolis organization is the best in the United States. At least it is one of the most popular and its popularity in great part is due to the conductor, Emil Oberhofer, who has made the organization famous.

In many respects Mr. Oberhofer is a wonderful musician. In the first place he has a remarkable memory and he seldom refers to music in conducting even the longest symphonies. Furthermore he possesses the ability to select numbers for his program which have the widest appeal from all sorts of music lovers.

## SITE FOR PROPOSED GARBAGE DUMP OF CITY INSPECTED

The city commissioners this morning inspected a proposed site for a city garbage dump. The site is located on the Weber river bottoms, southwest of the city. It is the aim of the commission to eliminate the garbage nuisance and menace caused by the dumping of garbage inside the city limits.

The property under consideration was offered to the city by F. Raleigh, of the Sanitary Garbage company. Mr. Raleigh attended the meeting of the commission last evening and repeated the offer he had previously made through communication.

There are 24 acres in the property. It is situated in what is known as "Horseshoe Bend" at the foot of Twenty-eighth street, on the west side of Weber river. Raleigh's proposal is that the city pay \$7000 for the property and that he will dispose of the garbage for \$500 per year. He has also offered to lease the property to the city for \$100 per month, which would include his services.

The matter was referred to the committee of the whole, and action will be taken on the proposition shortly.

## Changes In Operation of Trains Announced

Effective this afternoon at 3:35 o'clock, Oregon Short Line train No. 1, between Ogden and Salt Lake, will carry on local work which until today has been carried on by O. S. L. train No. 42. This statement was made at the depot offices this morning. No reason for the change in trains was given.

Train No. 42 will now operate directly between Ogden and Salt Lake, the local stops having been eliminated.

That's putting a lot of responsibility on the census taker—how's he going to know whether a Philadelphian is alive or not?

Prohibition Note: Owing to the lack of sugar, lemon extract is no longer served in the best substitutes families.

## BOY SCOUTS CELEBRATING TENTH ANNIVERSARY OF ORGANIZATION AND OPENING OF SECOND DECADE

Doing a good turn daily and urging others to do a good turn daily, also, Boy Scouts of Ogden with the Scouts of the United States are observing the tenth anniversary of the organization in this country.

Founded February 8th, 1910, and granted federal incorporation by act of congress June 15th, 1916, the growth of the Boy Scout movement in America has been phenomenal, and Scouting's tenth birthday finds 375,000 boys and 90,000 adult teachers actively engaged in its program of service to the nation and its boyhood.

Colin H. Livingston, of Washington, D. C., President of the National Council, and George D. Pratt, Benjamin L. Dulany, Milton A. McRae, Daniel Carter Beard, William D. Murray, Mortimer L. Schiff and Frank Presbrey have served the Scout movement continuously as members of its executive board since its organization, and since January, 1911, James E. West has been its chief scout executive.

Universal Good Turn Week  
A feature of the tenth birthday celebration of the Scout movement is a nation wide campaign in which through some channel every man, woman and child in the United States is being urged for Scout Anniversary Week the Boy Scout habit of doing a good turn to someone each day.

Outstanding among accomplishments of the ten years' history of the Scout movement is its remarkable growth among churches of all denominations, it being the first program to receive universal support among all religious groups. Church organizations representing more than 25,000,000 people have formally adopted the Scouting program and are developing plans for its extensive use. The Scout program is rapidly increasing in use among public schools throughout America as a post-classroom activity.

Since its inception, the Boy Scouts of America has had as its motto "Be Prepared," and every Scout is trained day after day in a practical readiness for emergencies. The records of the National Court of Honor contain the stories of hundreds of Scouts who have risked their lives to save life and won. Pershing's army in France had 100,000 men whose training as Scouts in the mastery of the outdoors made them more valuable as fighters. Through ten years of practical service the Boy Scouts of America have been recognized as valuable allies of police and fire departments, the Red Cross and every other emergency meeting agency.

Remarkable War Service of Scouts  
What most impressed the citizenship of the nation with the value and strength of the Boy Scouts of America was the enviable record made by the Scouts in every war activity in which they were asked to participate. Acting as gleaners in the five Liberty loan campaigns, 2,343,497 subscriptions amounting to \$354,130,687 were secured by Scouts, while more than \$50,000,000 worth of War Savings Stamps were sold as a result of Scout efforts. Secret service work of tremendous value, locating millions of feet of standing black walnut for gun stocks and airplane propellers, collection of carloads of fruit pits and nut shells for gas masks, the distribution of 50,000,000 pieces of literature to

arous patriotism, and definite help to the Red Cross are typical of the sort of service rendered effectively by Boy Scouts throughout America, which led the late Colonel Roosevelt, Honorary Vice President of the Boy Scouts of America and Chief Scout Citizen, to express their sentiment of the nation by saying: "Boy Scouts, you have made Uncle Sam's team."

Vast Extension Planned  
Throughout the United States plans are being developed by local Scout leaders for vast extension of Scouting into new fields so a greater proportion of the boys in America will be reached and every indication is that as the second decade of its service to the nation and its boyhood is entered upon, the Boy Scouts of America will be constantly increasing their force in building 100 per cent Americanism into the United States of tomorrow.

## NOTICE

The annual meeting of the stockholders of the Lynne Irrigation Co., will be held at the old meeting house, Second and Ogden, Utah, on Monday, March 1, 1920, at 7:30 p. m., to hear the financial report of the company and to elect a president, vice president, three directors and a secretary and treasurer, for the ensuing year, and to transact such other business, as may legally come before the meeting also to vote upon the question of taking stock in the proposed Weber County Water Storage Projects.

By order of the board of directors.  
MORONI STONE, President.  
DAVID M. SHAW, Secretary.

## POSITION OF OGDEN HUMAN OFFICER IS NOW VACANT

The city commissioners, at their meeting today approved the last report submitted by Frank Naisbitt, formerly city pound keeper. Mr. Naisbitt, who recently died, was pondmaster for many years.

Three applications for rooming house licenses were referred to the commissioner of public safety for investigation.

L. C. McLean presented a protest against the establishment of a baseball ground at Lorin Farr park. As the city has not contemplated such a park, the city recorder was instructed to inform Mr. McLean of the fact.

The city engineer was instructed to install an arc light at the corner of Twenty-ninth street and King avenue, instead of at the corner of Twenty-ninth street and Nye avenue.

The bond of Frank J. Hirt, for operating

Cheney & Co., Props., Toledo, O.

ating the concessions at Lorin Farr for the coming three years was approved, and Mayor Francis authorized to execute the contract between Hirt and the city.

The position of city humane officer was declared vacant, on recommendation of Commissioner J. Ray Ward.

A protest from residents in the vicinity of Thirty-third street and Adams avenue against the noise, dust and annoyance caused by the Moran asphalt plant was ordered referred to the Moran Paving company.

## "MAYTIME" PLAYS AT ORPHEUM TOMORROW

To the genuine appeal of its unbacked story is attributed much of the exceptional opportunity enjoyed in "Maytime." All of the scenes are laid in New York City and the action of the play covers a period of almost eighty years. Opening in a Washington Square garden in 1840, the story carries the audience down through the intervening decades to the busy metropolis of today. The intermediate acts or episodes, laid in 1855 and 1880, present colorful representation of the metropolitan life and manners of these periods. The unique opportunity the widely differing periods one play depicts offered for brilliant costuming and picturesque stage decoration has been fully realized. "Maytime" is a treat to the eye as well as to the ear and mind. "Maytime" will be seen at the Orpheum tomorrow night.—Adv.

## CENSUS DIRECTOR HERE IN NEED OF MORE CO- OPERATION

The sending of census returns for Ogden and other parts of its district of Utah, are being held up, Supervisor George Romney, Jr., today stated, because of non-resident farmer slips which have been forwarded to his office.

These slips indicate that property in other parts of the state is owned by people who are in Ogden at present. As the addresses sent in from

## Fine Metals Make a Fine Car

As a car is 98% metal you can readily imagine how great a part metals play in its quality. A Maxwell is made of fine metals—extra fine metals; otherwise it never could have survived those 1,500,000,000 miles that owners are estimated to have driven it.

These metals had to be of the finer grades in a Maxwell. For a Maxwell is light—2130 pounds. Lighter metals had to be used but lighter in weight only—not in strength.

Such metals are the extra fine metals that the great science of metallurgy has produced. They are high priced. But they have won countless friendships for Maxwell, developed a great family of owners approaching 400,000 in number.

This vast number is growing daily at the rate of 100,000 per year.
